

ERNEST final conference - Florence, June 27th, 2012

DURABLE COOPERATION

**Elements identified for the recommendation report
on long term road map**

‘Ensuring the long term sustainability of the ERNEST network activities means to ensure that the work and results of ERNEST are not lost but have a future of some form ...’

- how the project results can be used?
- where joint activities and actions can be continued?
- what future funding opportunities exist?

Cooperation areas identified - 1

**where joint activities and actions
can be continued?**

Good practice database
implementation & dissemination
New project proposal (virtual visits)

joint call-related activities
monitoring of projects/dissemination
+ more local 'ERNEST inspired' calls

how the project results can be used?

Local level capitalization
use knowledge acquired
for improving own
sustainable tourism measures

Cooperation areas identified - 2

what future
funding opportunities exist?

Project ideas:

- nautical tourism innovation,
- testing of measures for pollution reduction
- and better use of resources in Baltic areas
